PROJECT

- **CSP** : Empowering Tomorrow-A HOLISTIC INITIATIVE FOR GOVERNMENT SCHOOL ENHANCEMENT

    Empowering Tomorrow is a community service project that aims to improve the quality and accessibility of education for underprivileged children in government schools.

- **ML Project** : SIGNSENSE – DECODING SIGN LANGUAGE USING MACHINE LEARNING

    Sign-Sense is an innovative sign language recognition system designed to bridge the communication gap for the deaf and hard-of-hearing community. Sign language, which uses hand gestures, facial expressions, and body movements to convey meaning, is essential for these individuals to communicate effectively and participate fully in society.
